

# BINTI NAYLATUL WAFIROH

Nganjuk, East Java · [inaylalala@gmail.com](mailto:inaylalala@gmail.com) · [0857-3215-6462](tel:0857-3215-6462) · [Linkedin](#) · [Github](#)

## SUMMARY

---

I am a technician who has successfully completed in-depth Quality Assurance Engineering program at Alterra Academy. My expertise includes testing manual and automation and performance testing using Jmeter. I'm also skilled at performing website and API testing using Selenium, Serenity, JMeter, Rest Assured, and Postman. I like pressure because it makes me more efficient when performing a task and thinking simply.

## TECHNICAL SKILLS

---

- Language : Java
- Technologies : Git, MySQL, Figma, Postman, TestRail, Selenium, Serenity, Cucumber
- Other : Problem solving, Team management

## PROJECT

---

- [Mentutor](#) (API and Web Testing)  
Mentors are present as a forum for teachers to monitor their students both by collecting assignments and by discussing with students through the forums provided. Testing on this project uses Selenium Java, Serenity BDD, Cucumber, Rest Assured, Postman, Maven, and IntelliJ IDEA. There are 74 Test Cases for Web Testing and 96 Test Cases for API Testing. Where 87.5% of Test Cases passed Web Testing and 95.9% of Test Cases passed API Testing. In Web Testing, I tested the forum, home, task and profile mentor features. In API Testing, I tested the forum, home, task and profile mentor features. See the source on [Github](#)
- [Sauce Demo](#) (Web Testing)  
The web applications provided in Swag Labs are designed to include features commonly found in e-commerce applications, such as product browsing, adding products to a shopping cart, and the checkout process. Testing on this project uses Selenium Java, Serenity BDD, Cucumber, Rest Assured, Postman, Maven, and IntelliJ IDEA. In Web Testing, I test login, product, checkout features
- **Another project**  
Build another group or personal project on [Github](#).

## WORK EXPERIENCE

---

### STUDIO HABIBULLAH43

January 2022-April 2022

- Videographer cinematic
- Video cinematic editor
- Photo studio editor

## EDUCATION

---

### ALTERRA ACADEMY

July 2023-December 2023

Immersive Program, Quality Assurance Engineering

- Immersive Program Quality Assurance Engineer is an intensive 4 months program designed to train future QA engineers in the fundamentals of software development.
- This rigorous 10-15hr/week program has a well-documented history of developing top notch software engineers.
- Course: Java, Selenium, Behaviour Driven Development, MySQL, Git, Github, Postman, Jmeter, Trello, TestRail.
- Capstone Project: Testing Mentutor app and building automation and manual testing of websites with IntelliJ IDEA and Postman. And work management in trello.

### SMKN 1 TANJUNGANOM

July 2020-June 2023

multimedia

- 6/6 semesters, 84.09
- learn the basics of programming
- create various film and video projects

## LANGUAGE

---

- Bahasa (Native)
- English (Limited Working Proficiency)

## INTEREST

---

- always interested in technological developments and has an interest in learning new things
